#WonderWhatsWithin #CreateYourOwnOpportunities

Our **entry-level scientific lab-based positions** are split between three sub-titles, Synthesis, Purification, and Formulation.

More detailed descriptions of each can be found below:

- The Technician II (**Synthesis**) synthesizes custom oligonucleotides according to the customer's order. This generally includes synthesis, cleavage, deprotection and QC sampling of the products being made.
- The Technician II (**Purification**) purifies custom oligonucleotides according to the customer's order. This generally includes the sorting, purification, and QC sampling of the products being made.
- The Technician II (**Formulation**) formulates custom oligonucleotides according to the customer's specifications. This generally includes quantification, final packaging, and QC sampling of the products being made.

### **What do we require?**

Associate's (2 year) degree OR Comparable combination of education and experience.

A Bachelor's degree in a science-related field preferred.

### **What do we offer?**

- Generous Paid Time Off Accruals
- 16 Hours PAID Volunteer Time Off
- 10 Paid Holidays
- Up to eight (8) weeks of 100% paid parental leave to eligible U.S. associates
- 401(k) with Company Match
- Medical, Dental, and Vision Insurance Options

**IDT Core Values** [ <https://www.idtdna.com/pages/about/core-values> ]

- Be The Best at YOUR Thing!
- Embrace the UNDERDOG role!
- Make OLIGOS, not WAR!
- We Change Our Minds...A Lot!
- We [heart] Data!
- Be YOURSELF, unless you're a jerk!
- Create your own OPPORTUNITIES!
